**Sisters. Wish they'd witnessed the invention of chocolate. Both could shop till they dropped in any of Etro's stores. And think Absolut's advertising has become art. And wine that gives you headaches - chateau migraine - should be abolished. Both love their typical Dutch canal house and its view of the canals. But they'd have Rem Koolhaas design them a house in London if they could. They'd throw a glittering do in Baccarat's Crystal Room in Paris, designed by Philippe Starck.**

**We like to  
incorporate  
customers'  
collected  
furniture into  
coherent  
contemporary  
settings**
